

Note 4 Online training course

8. Role-plays for post-course assignment

Explain how you administer role-plays as part of the post-course assignment for online participants. Indicate for how long records and videos are retained.

We make available a new role play for the purpose of the post course exercise and the scripts are sent to the delegate to use with volunteer role players in their location.

They are asked to record the role play which is sent to LSM for review.

A spreadsheet of these role plays is kept with delegate name, date, role play and remarks.

Feedback is provided to each delegate by one of LSMs tutors with any polishing points or observations.

The videos are retained for a 3m period on a video platform.
